Three Teams Sweep Both Titles at the USFHK Intercollegiate Competition 2025-26

三支隊伍於大專比賽雙雙奪冠

The 2025-26 USFHK season has wrapped, and the results are in. Across 35 events, we captured 7 champion titles, 7 second-place finishes, and 2 third-place finishes, with badminton, rugby, and table tennis leading the charge as both the men's and women's teams claimed dual championships.

2025-26 大專比賽賽季已經圓滿結束，成績正式出爐。在 35 個項目當中，我們共奪得 7 項冠軍、7 項亞軍及 2 項季軍；其中羽毛球、欖球及乒乓球表現尤為突出，男子組與女子組雙雙奪得冠軍殊榮。

Our Champion Teams 我們的冠軍隊伍

Overall, our Men's team secured 2nd Runner-up, while the Women's team battled with pride to lock in 3rd Runner-up—no easy feat amid the fierce competition from 13 institutions.

The success extended beyond the team results. The 2025-26 season saw new legends enshrined in the USFHK Hall of Fame, as we erupted for the Most Valuable Players and Individual Champions who outclassed the competition.

With multiple teams reaching the podium, it was a season to remember—especially for the three dual champions.

整體而言，男子組成功奪得總季軍，而女子組亦奮力拼搏，穩奪總殿軍，在 13 所院校的激烈競爭下，這絕對是一份不簡單的成績表。

但慶祝活動還不止於此。2025-26 賽季同時見證了我們的學生運動員獲列入大專名人堂，我們亦為脫穎而出的最有價值運動員及個人冠軍得主歡呼喝采。

多支隊伍成功登上頒獎台，這無疑是一個難忘的賽季—當中尤以三支榮膺雙料冠軍的隊伍最令人印象深刻。

With more than 6,500 graduate and internship opportunities spanning multiple sectors, the Expo offered students unparalleled access to diverse career pathways. Through meaningful engagement with employers and industry leaders, participants gained valuable insights into evolving market trends and professional prospects.

Complementing the exhibition were a series of thoughtfully curated activities, including Recruitment Talks, Industry Insight Sharing Sessions, CV Clinic, Professional Portrait Shooting Service, and Digital Literacy Enhancement. These well-received initiatives were designed to equip students with essential skills and confidence as they prepare to transition into the professional world.

A key highlight of the week was the Chinese Enterprise Career Fair Series, which brought together approximately 20 leading companies and organisations from Beijing, Shanghai, and Shenzhen. Their presence significantly broadened the scope of opportunities available, particularly for students aspiring to build careers in the dynamic Chinese Mainland markets.

CLC remains steadfast in its commitment to empowering students at every stage of their career journey. By providing dedicated career guidance and fostering strong partnerships with employers, the Centre continues to support students in achieving their professional ambitions.

2025 年 SEN 畢業生回顧他們精彩的大學之旅，分享他們人生旅程的精彩新篇章！

As a Data Science student at CityUHK, I was equipped with fundamental skills in data analytics and machine learning, alongside practical experience in applying these skills to real life data.

During my university journey, I received various support from SEN Support Services such as training workshops on workplace skills, including interview skills and social skills at work. These helped me to optimally prepare myself for job interviews and job-hunting process. In addition, I learnt how to create positive first impression in workplace through enhanced attention to appearance, interpersonal behaviours and communication.

In addition to the above-mentioned sessions, I joined many other different workshops organised by the SEN Support Services. Some activities like Excel Expert and Adobe Premiere Pro programmes strengthened my technical proficiency on relevant software; and activities like dining etiquette enhanced my table manner at business lunch or dinner.

I currently work as a part time AI engineer in the Hong Kong Science Park, and am a full-time student studying Master of Science in Big Data Technology at HKUST. My study at CityUHK had laid a solid ground of knowledge for my further study, enabling me to build upon the knowledge and skills developed through undergraduate projects and coursework.

I am truly thankful for the support I received from both Department of Data Science and SEN Support Services at CityUHK, nurturing me to grow without limit!

我在城大主修數據科學，掌握了數據分析和機器學習的基礎知識，以及它們在現實生活中的相關應用。

在大學期間，我從特殊教育需要支援服務組中獲得了各種支援，例如從職場技能培訓工作坊中，我學會如何在求職過程及面試中做好最佳準備。此外，我亦學習到如何透過得體的外表、良好的人際行為及有效溝通，在職場中建立良好的第一印象。

除了上述的技能工作坊，我還參加了許多由特殊教育需要支援服務組舉辦的不同活動，如 Excel Expert、Adobe Premiere Pro 課程，加強了我對相關軟件的知識和應用能力，而用餐禮儀等活動則提升了我在商務午餐或晚餐時的應對和禮儀。

我目前在香港科學園擔任兼職人工智能工程師，也是一名全日制學生，正在香港科技大學攻讀大數據技術理學碩士。我在城大的學習為我打下了堅實的知識基礎，讓我能夠將本科期間於項目及課業中所掌握的數據科學技能，靈活應用於碩士課程的學習之中。

我衷心感謝城大數據科學系和特殊教育需要支援服務組對我的支持，讓我得以持續成長，拓展無限可能！

The "IDEA Campaign" is CityUHK's flagship annual event, dedicated to fostering a culture of Inclusion, Diversity, Equity, and Awareness. Each letter of IDEA reflects our commitment to nurturing a community built on love, care, and respect. Together, they illuminate our determination to raise awareness of these values across campus.

The theme for 2026, "See the Able, Not the Label," challenges us to move beyond stereotypes and preconceived notions. It urges us to recognise and celebrate the unique abilities, strengths, and potential of every individual—including those with diverse intellectual abilities or special educational needs.

Increasingly, advocates encourage the use of the term "neurodiversity" instead of "special educational needs." Neurodiversity acknowledges the natural variations in human thinking and learning. It highlights that each person has a distinct way of processing information, expressing creativity, and solving problems. These differences are not obstacles; they are powerful assets that enrich and strengthen our communities.

The IDEA Campaign 2026 emphasises that embracing neurodiversity and advancing inclusion cannot be achieved by any single group alone. It requires the collective effort of universities, families, communities, and society at large. Only through genuine collaboration can we dismantle prejudice and build an environment rooted in mutual support, respect, and appreciation.

IDEA 代表 Inclusion (共融)、Diversity (多元)、Equity (公平)、Awareness (覺察)。IDEA Campaign 不僅是一個活動，更象徵著我們共同的承諾——致力於培養一個包容與多元的社群，並提醒我們：每一個人，不論背景或能力，都應該擁有茁壯成長與貢獻社群的機會。

轉眼踏入第 10 個年頭，IDEA Campaign 今年以「腦力多元 多源努力」("See the Able, Not the Label") 為主題。「腦力多元」代表著人類思維的多樣性——每個人都有獨特的學習方式、創造力與解難能力。這些差異不是障礙，而是社群的力量來源。事實上現今越來越多人建議使用「腦力多元」這個形容詞取代「有特殊學習需要」。

「多源努力」則提醒我們，共融並非單靠某一方的付出，而是需要大學、社區、家庭與社會各界攜手合作；只有大家共同努力，才能真正打破偏見，建立一個互相支持、彼此欣賞的環境。這個主題提醒我們，要打破既有的標籤 (Label)，看見每一位腦力多元人士或有特殊學習需要人士特有的能力與潛力。
