

香港城市大學  
City University of Hong Kong

## *University Announcement*

### **Notification on Emergency Response Unit (ERU) (6)**

The University was notified that one of our students could not be reached for the past few days while in Tibet. Professor Way Kuo, University President, was highly concerned and immediately instructed the Emergency Response Unit (ERU) to look into the matter.

The ERU contacted the family of the student to understand the situation and to provide assistance as appropriate. Last night, we confirmed through various channels that the student is safe. The student will return to Hong Kong soon after having a health checkup.

The safety of our staff and students is always our top priority. Staff and students who are in need or who encounter special circumstances can contact the ERU through Professor Eric Chui, Dean of Students, and the Student Development Services team (email: [enquiry.eru@cityu.edu.hk](mailto:enquiry.eru@cityu.edu.hk).)

The ERU will continue to communicate directly with staff and students, and refer enquiries to the corresponding departments for appropriate assistance. In emergency situations, staff and students may call our 24-hour emergency hotline: 3442 8888.

Chairmen of the ERU,  
Professor Horace Ip Ho-shing, Vice-President (Student Affairs)  
Mr Sunny Lee Wai-kwong, Vice-President (Administration)
