

### **Notification on Emergency Response Unit (ERU) (54)**

In case of any confusion arising out of ERU UA 52 and ERU UA 53 on the working arrangements for the upcoming week (25 November to 1 December), both UAs are consistent in that they are concerned with the safety of the campus.

In short, while a large number of rehabilitation projects on campus are still on going, staff are expected to return to the campus to work as normal. Flexibility will be given to those who are unable to arrive punctually due to traffic conditions. The University will also enhance property and security management and implement access control at all entry points of the campus. In this regard, staff are kindly reminded of bringing your staff card for access. The details of the campus operation can be found in [ERU UA 52](#).

The special arrangements expressed in [ERU UA 53](#) aim at safeguarding staff and students and protecting the campus from suffering another possible large-scale attack. The University appreciates the understanding, support and cooperation of all staff and students.

Staff and students who are in need or who encounter special circumstances can contact the ERU through Professor Eric Chui, Dean of Students, and the Student Development Services team at [enquiry.eru@cityu.edu.hk](mailto:enquiry.eru@cityu.edu.hk). The ERU will continue to communicate directly with staff and students and refer enquiries to the corresponding departments for appropriate assistance. In emergency situations, staff and students may call our 24-hour emergency hotline: 3442 8888.
