Executive Committee expresses support for President Way Kuo and Management
and in their call to vacate the student residences

In the light of recent events and the rapid escalation of violence and criminal destruction of property, the Executive Committee of the Council of City University of Hong Kong wishes to express its support for the management of the University in calling for all students to vacate the residences as soon as practically possible because of the risk of potentially dangerous goods being stored in the vicinity.

Campus safety and the safety of our students and staff remains our first priority and we strongly advise all students to avoid engaging in any destructive or violent action on or off campus.

Executive Committee of the Council of City University of Hong Kong
