

香港城市大學  
City University of Hong Kong

## *University Announcement*

### **Notification from the Emergency Response Unit (ERU) (100)**

In view of the volatile and challenging pandemic situation, the University has been closely monitoring the related developments since January and has taken all necessary steps to handle the situation carefully.

The Emergency Response Unit sent an email to all Deans and Heads last Friday, reminding them that if there are any suspected or confirmed campus-related Covid-19 cases, they should notify the ERU chairmen immediately so that appropriate action can be devised and taken.

In addition, staff and students should alert their respective dean or head should there be any suspected and confirmed cases in their residential building or exposure to such risks. They should self-isolate immediately and work or study from home.

We urge everyone to face the volatility of the pandemic calmly and work together to overcome the challenges.

Please seek medical attention as soon as possible if you are feeling unwell.
