University Announcement

Notification from the Emergency Response Unit (ERU) (95) Latest development about the possible Covid-19 case

We learned on July 15 that a laboratory staff member had initially tested positive for Covid-19 and had been admitted to hospital for further assessment. President Way Kuo and Professor Richard Yuen Kwok-kit, Chief-of-Staff, called and gave sincere regards to the staff member the next morning. They were pleased to learn that the individual's health condition was fine.

Today, we are glad to hear that the staff member has now tested negative and subsequently was discharged from hospital. We would like to wish this staff member good health and safety.

We urge everyone to face the volatility of the pandemic calmly and join together to overcome the challenges. We will continue to pay close attention to the situation and take all the necessary steps to keep everyone safe.
