University Announcement

Notification from the Emergency Response Unit (ERU) (103) Clarification on a fake message

Last week, it came to our attention that some individuals took advantage of the pandemic situation to impersonate a CityU staff member and make false claims that rooms would be available for rental for lunch purposes. The office phone number of the staff member was attached for contact.

The University solemnly clarifies that the information they provided was false. Please be vigilant to prevent fraud and losses. The University strongly condemns this sort of illegal behaviour and reserves the right to take legal action.
