University Announcement

Confirmed Covid-19 case Notification from the Emergency Response Unit (ERU) (111)

The University was informed that a student tested positive for Covid-19 on 27 August (last Thursday) and the individual has been receiving treatment in a community treatment facility. The student reported not having returned to campus in the past several months. The Department of the student has been informed and follow-up actions have been taken by the University according to the guidelines provided by the Centre for Health Protection.

President Way Kuo together with Professor Richard Yuen, Chief-of-Staff, and Professor Eric Chui, Dean of Students, have contacted the student to express their sincere concerns. They were glad to know that the student's condition was stable.

Arrangements for the student's studies have been made. Everyone at CityU wishes the student a speedy recovery.
