University Announcement

Confirmed Covid-19 case

Notification from the Emergency Response Unit (ERU) (137)

The University has been informed yesterday evening (19 February) that a non-local student from the Department of Systems Engineering and Engineering Management tested positive for Covid-19 on 8 February in the individual's home country. The individual returned to his/her home country at the beginning of this semester and has not been on the CityU campus since then.

President Way Kuo together with Professor Eric Chui, Dean of Students called the student to offer their sincere regards and are pleased to learn that the student is recovering. The student has been assured that the University would provide appropriate assistance if needed.

Staff and students are required to report any suspected case to their Head if they or any direct relative (living together) believe that they might be infected. Department heads are advised to make appropriate arrangements. For details, please refer to the Facilities Management Office website.

We will continue to pay close attention to developments, take all necessary steps, and handle the situation carefully. For the benefit of both you and those around you, we once again advise everyone to maintain good personal hygiene and social distancing.

CityU 24-hour hotline: 3442 8888
