University Announcement

Notification from the Emergency Response Unit (ERU) (141) Guidelines to staff for outbound travel

The safety of our staff and students is our top priority. The University has been monitoring the development of the pandemic closely since last year. We took the lead to adopt a number of anti-virus measures. In view of the latest development of Covid-19 and taking the Government's [boarding and quarantine arrangements](#) imposed on specified places into account, the University announces the following:

- We continue to suspend any work-related trips to “Extremely/ Very high-risk” (Group A) or “High-risk” (Group B) specified places.
- We don't encourage staff to take work-related trips to “Medium-risk” (Group C) or “Low-risk” (Group D) specified places. Prior approval by department/unit head should be sought if travel is necessary.
- We strongly recommend staff not to take personal trips outside Hong Kong.
- Staff returning from either work-related or personal trips outside Hong Kong, who are required by law to undergo the corresponding compulsory quarantine and self-monitoring (if necessary), are expected to take personal leave during these periods. They should stay at home and observe the government's regulations before the completion of the self-monitoring period.

For the latest information for preventing Covid-19 at the University, please refer to the Facilities Management Office [website](#).

We will continue to pay close attention to developments, take all necessary steps and handle the situation carefully. For the benefit of both you and those around you, we once again advise everyone to maintain good personal hygiene and social distancing.
