

Notification from the Emergency Response Unit (ERU) (148)

Members of the University community can access more information about confirmed Covid-19 cases that have been reported to the University via the FMO [website](#). The webpage will be updated on a daily basis.

Anyone who might be affected by confirmed cases will be informed. Follow-up action will be taken by the University in accordance with the guidelines provided by the Centre for Health Protection. All relevant areas on campus will be disinfected and cleaned.

Staff and students are required to report any suspected cases to the Head of their unit if they or any direct relative (living together) believe they might be infected. Heads are advised to make the appropriate arrangements. For details, please refer to the Facilities Management Office [website](#).

We will continue to pay close attention to developments, take all necessary steps and handle the situation carefully. For the benefit of both you and those around you, we once again advise everyone to maintain good personal hygiene and social distancing.
