Background

- English proficiency of the incoming students
- Medium of teaching and learning at CityU
- Expectation from the society
- Initiatives developed by various parties to improve students English skills – from credit bearing courses to self-access learning
- e-learning tools introduced to support learning activities

How Can We Help?

- Obtain a holistic view of language support at CityU
- Identify students needing help in English
- Recommend students to join suitable English enhancement scheme(s)
- Motivate students to improve their English for life long learning
