PIA3544 Comparative Management: China, Japan and South Korea

**Part II Course Details****Abstract**

East Asian managerial practices and systems (i.e., Mainland China, Hong Kong, Taiwan, Singapore, Japan, and South Korea) have been influenced to different degrees by Confucianism and have been developed under very different social and historical environments. Although these societies share a common East Asian culture with each other, each of them maintains a unique business culture. Behind the Confucian societies, the member countries of the Association of South-East Asian Nations (ASEAN, i.e., Indonesia, Thailand, Malaysia, Philippines, and Vietnam) have also shown a consistently good economic performance and equally high growth rates since the 1990s. Studying and comparing cultural value systems and management among the Asian societies will expand the knowledge base of students and develop their critical thinking because the development of management systems of a country can be affected by its historical and political background, people's cultural values as well as the globalization of management systems as directed by the American systems. The study of different cultural values and management systems shall also enhance students' understanding of their own business culture and develop sensitivity toward and an appreciation of diversity in today's globalized business environments.

Apart from traditional classroom teaching, audio teaching materials will be used to help students towards a better understanding on to particular concepts or theories. Students will be given chances to search on the Internet to find updated information on the taught topics during tutorials. Other learning activities such as guest seminars, evaluation of selected texts for in-class group discussion and a group project and presentation are also included to facilitate interactive and self-discovery learning.

## A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

## Teaching and Learning Activities (TLAs)

| TLAs | Brief Description   | CILO No.      | Hours/week (if applicable) |
|------|---|---------------|----------------------------|
| 1    | Lecture<br><br>Lecture will teach students the influences of cultural/societal value systems on management systems and practices. Students will learn how to critically reflect on the nature and impact of cultural/societal values that contribute to their understanding of the development of management systems in the Asian context. Audio materials and the use of the Internet will be added as teaching strategies to enhance students' motivation. Guest speaker(s) working at Chinese, Japanese and/or Korean company etc. in HK will be invited to deliver a seminar to our students. | 1, 2, 3, 4, 5 | 2 hour                     |
| 2    | Tutorial<br><br>Small-group analysis and evaluation of the texts as a means to sensitize students to enhance their understanding of the topics throughout the course.   | 1, 2, 3, 4, 5 | 1 hour                     |

|   |          |  |            |  |
|---|----------|--|------------|--|
| 3 | Tutorial | Group discussion, a group project and presentation will involve students in active learning through interaction and reflection. The activity of group discussion will mainly focus on guiding students to compare the value and management systems between particular Asian societies and the United States. The group project and presentation will encourage students to extend their knowledge on Asian values and management as well as providing an opportunity for self-discovery learning as each group will be asked to write a project (i.e. newsletter) on a selected company in either business-oriented or non-profit making organization. | 1, 2, 4, 6 |  |
| 4 | Tutorial | Tutorial will guide students how to apply the theories in analyzing and evaluation of the texts from the case studies of different organizations/ companies in different Asian societies.  | 3, 5       |  |
| 5 |          | Examination (esp., essay questions) and group project (written) and presentation (oral) as a means to improve their critical writing and presentation skills.  | 6          |  |

**Assessment Tasks / Activities (ATs)**

| ATs | CILO No.  | Weighting (%) | Remarks (e.g. Parameter for GenAI use) |
|-----|---|---------------|--|
| 1   | A group project (include essay writing) and presentation are given to assess students' understanding on the formation and development of different management systems. In addition, peer evaluation, self-reflection on project, and a project revision system will be used to enhance students' reflection ability and the quality of project. | 1, 2, 4, 5, 6 | 40                                     |
| 2   | In-class/online discussions and short individual/group reporting are given to evaluate students' comprehensive ability. The weekly individual sharing session will enhance students' critical thinking and communication skills, and consequently bring positive influence to the class interaction,  | 2, 5, 6       | 20                                     |
