

MSE3130: BIOMATERIALS

Effective Term

Semester A 2023/24

Part I Course Overview

Course Title

Biomaterials

Subject Code

MSE - Materials Science and Engineering

Course Number

3130

Academic Unit

Materials Science and Engineering (MSE)

College/School

College of Engineering (EG)

Course Duration

One Semester

Credit Units

3

Level

B1, B2, B3, B4 - Bachelor's Degree

Medium of Instruction

English

Medium of Assessment

English

Prerequisites

Nil

Precursors

AP2102/MSE2012 Introduction to Materials Engineering

Equivalent Courses

AP3130 Biomaterials

Exclusive Courses

AP4173 Biomedical Materials : From Engineering To Clinical Applications

Part II Course Details

Abstract

Developing materials for use in biomedical field is a challenging interdisciplinary process and requires an understanding of material bulk and surface properties, the various biological responses to the materials, the clinical context of their use,

manufacturing processes, cost, sterilization, packaging and regulatory issues. This course is designed to introduce students to the various classes of biomaterials in use and their applications in selected areas of the biomedical field.

Course Intended Learning Outcomes (CILOs)

CILOs		Weighting (if DEC-A1 DEC-A2 DEC-A3 app.)		
1	Describe the various classes of biomaterials on the basis of structure and function	25		x
2	Apply various analytical methods to characterize bulk and surface properties of biomaterials	25	x	
3	Understand and the working principles and applications of various types of biomedical materials	25		x
4	Describe various practical aspects of biomedical device design, fabrication and testing	25		x

A1: Attitude

Develop an attitude of discovery/innovation/creativity, as demonstrated by students possessing a strong sense of curiosity, asking questions actively, challenging assumptions or engaging in inquiry together with teachers.

A2: Ability

Develop the ability/skill needed to discover/innovate/create, as demonstrated by students possessing critical thinking skills to assess ideas, acquiring research skills, synthesizing knowledge across disciplines or applying academic knowledge to real-life problems.

A3: Accomplishments

Demonstrate accomplishment of discovery/innovation/creativity through producing /constructing creative works/new artefacts, effective solutions to real-life problems or new processes.

Teaching and Learning Activities (TLAs)

TLAs		Brief Description	CILO No.	Hours/week (if applicable)
1	Lecture	Explain key concepts, theories, and applications etc.	1, 2, 3, 4	3 hrs
2	Tutorial	Exercise practice	1, 2, 3, 4	0.5 hr
3	Lab	The students will carry out lab work	1, 2, 3, 4	0.5 hr

Assessment Tasks / Activities (ATs)

ATs		CILO No.	Weighting (%)	Remarks (e.g. Parameter for GenAI use)
1	Mid-term Test	1, 2, 3, 4	20	
2	Six Lab Experiment Projects and Reports	1, 2, 3, 4	15	

Continuous Assessment (%)

35

Examination (%)

65

Examination Duration (Hours)

2

Additional Information for ATs

For a student to pass the course, at least 30% of the maximum mark for the examination must be obtained.

Assessment Rubrics (AR)

Assessment Task

Midterms

Criterion

Understand the scientific principles and the working mechanisms. Identify and explain how the principles are applied to science and technology for solving physics and engineering problems.

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Assessment Task

Lab reports

Criterion

Understand the experimental principles and evidence of original thinking, Ability to communicate ideas via written texts.

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Assessment Task

Exam

Criterion

Demonstrate understanding of the scientific principles and the working mechanisms. Identify and explain how the principles are applied to science and technology for solving physics and engineering problems.

Excellent (A+, A, A-)

High

Good (B+, B, B-)

Significant

Fair (C+, C, C-)

Moderate

Marginal (D)

Basic

Failure (F)

Not even reaching marginal levels

Part III Other Information**Keyword Syllabus**

Introduction of biomaterials; properties of polymeric materials, ceramics, and metal materials for biomedical applications; surface properties and characterization of biomaterials; biomaterial qualities: strength, wear, and sterilization; biological response to foreign materials, biocompatibility; degradable materials; biomedical devices, failure, retrieval & evaluation; applications in nephrology, ophthalmology, orthopaedics, and dentistry

Reading List**Compulsory Readings**

Title	
1	Nil

Additional Readings
